American Journal of Physiology: Regulatory, Integrative and Comparative Physiology

KEY TO CATEGORIES: **1.** Comparative Physiology *Regulation and Integration in:* **2.** Autonomic Physiology; **3.** Behavior; **4.** Cardiovascular Physiology; **5.** Endocrinology; **6.** Energetics; **7.** Fluids and Electrolytes; **8.** Functional Morphology; **9.** Ingestion; **10.** Periodicity; **11.** Respiration; **12.** Temperature

No. 1. JULY 1990

CATEGORY		
	A feverlike response inhibits expression of delayed-type hypersensitivity in rats *M. Banet*	R1
	Effect of intrarenal renin inhibition on renal hemodynamics and excretory function *K. M. Verburg, J. R. C. Kadam, G. A. Young, S. H. Rosenberg, and H. D. Kleinert*	R7
	Force and acid-base state of turtle cardiac tissue exposed to combined anoxia and acidosis *J. S. Wasser, E. V. Freund, L. A. Gonzalez, and D. C. Jackson*	R15
	Effect of human pregnancy on metabolic clearance rate of oxytocin *S. Thornton, J. M. Davison, and P. H. Baylis*	R21
	Short-term hormonal responses to food intake in the peripubertal female rat *F. H. Bronson and P. D. Heideman*	R25
	Cardiovascular effects of microinjection of ANF and brain natriuretic peptide into ventrolateral medulla *R. Ermirio, G. L. Avanzino, P. Ruggeri, M. Bergaglio, and F. R. Calaresu*	R32
	Interleukin 1 and endotoxin activate soluble guanylate cyclase in vascular smooth muscle *D. Beasley*	R38
	Site of action of putative lipostatic factor: food intake and peripheral pentose shunt activity *R. B. S. Harris and R. J. Martin*	R45
	Antidiuretic effect of subnormal levels of arginine vasopressin in normal humans *L. J. Andersen, J. L. Andersen, H. J. Schütten, J. Warberg, and P. Bie*	R53
	Underlying mechanisms of atrophic state of brown adipose tissue in obese Zucker rats *J. Seydoux, R. H. Benzi, M. Shibata, and L. Girardier*	R61
	Mechanisms of impaired excretion of a fluid load after cardiac denervation in dogs *T. D. M. Williams, C. M. Travill, M. I. M. Noble, A. J. Drake-Holland, J. Chalmers, C. D. Jeffery, R. Sutton, and S. L. Lightman*	R70
	Parasympathetic impairment of baroreflex control of heart rate in Dahl S rats *S. A. Whitescarver, C. E. Ott, and T. A. Kotchen*	R76
4,5,7	Effect of converting-enzyme inhibition on renal response to ANF in rats with experimental heart failure *Z. Abassi, A. Haramati, A. Hoffman, J. C. Burnett, Jr., and J. Winaver*	R84
	Norepinephrine turnover in brown adipose tissue of young rats: effects of rearing temperature *R. Bertin, I. Mouroux, F. De Marco, and R. Portet*	R90
	Atrial natriuretic factor modulates whole kidney tubuloglomerular feedback *K. B. Margulies and J. C. Burnett, Jr.*	R97
4,7,5	Role of aldosterone in angiotensin II-induced hypertension in rats *N. L. Kanagy, C. M. Pawloski, and G. D. Fink*	R102
	Intraduodenal infusions of fats elicit satiety in sham-feeding rats *D. Greenberg, G. P. Smith, and J. Gibbs*	R110
	Renal responses to graded hemorrhage in conscious pig *J. L. Sondeen, G. A. Gonzaludo, J. A. Loveday, G. E. Deshon, C. B. Clifford, M. M. Hunt, W. G. Rodkey, and C. E. Wade*	R119
	Plasma profiles of IL-6 and TNF with fever-inducing doses of lipopolysaccharide in dogs *D. R. LeMay, L. G. LeMay, M. J. Kluger, and L. G. D'Alecy*	R126

1 Halothane sensitivity of young pigs in vivo and in vitro
R. S. Fay and E. M. Gallant R133

Control of interbreath interval in the African lungfish
A. I. Pack, R. J. Galante, and A. P. Fishman R139

Sodium-coupled organic anion transport by *Cancer borealis* urinary bladder
P. M. Smith, D. S. Miller, and J. B. Pritchard R147

5,9,10 Feeding influences plasma cortisol levels during preweaning life in baboons
D. S. Lewis and E. M. Jackson R157

4,6,11 Influence of increased metabolic rate on [^{13}C]bicarbonate washout kinetics
T. J. Barstow, D. M. Cooper, E. M. Sobel, E. M. Landaw, and S. Epstein R163

MODELING METHODOLOGY FORUM

4,7 Improved method for estimating Ca uptake in vascular smooth muscle using compartmental analysis
H. A. Massaldi, J. Copello, A. Müller, and M. F. Villamil R172

RAPID COMMUNICATIONS

5 Reduced adipsin mRNA and circulating adipsin protein are modulated by adrenal steroids in obese Zucker rats
P. R. Johnson, B. Spiegelman, B. Rosen, I. Turkenkopf, H. Ree, and M. R. C. Greenwood R184

No. 2. AUGUST 1990

CATEGORY

MUSCLE AND TEMPERATURE

Introduction: Influence of temperature on muscle and locomotor performance
L. C. Rome and A. F. Bennett R189

3,12,1 Effects of temperature on nervous system: implications for behavioral performance
J. C. Montgomery and J. A. MacDonald R191

6 Influence of temperature on mechanics and energetics of muscle contraction
J. A. Rall and R. C. Woledge R197

Effects of temperature and concomitant change in pH on muscle
E. D. Stevens and R. E. Godt R204

Influence of temperature on muscle recruitment and muscle function in vivo
L. C. Rome R210

1,8,12 Deactivation rate and shortening velocity as determinants of contractile frequency
R. L. Marsh R223

Thermal acclimation and muscle contractile properties in cyprinid fish
I. A. Johnston, J. D. Fleming, and T. Crockford R231

Mechanisms of temperature acclimation in the carp: a molecular biology approach
G.-F. Gerlach, L. Turay, K. T. A. Malik, J. Lida, A. Scutt, and G. Goldspink R237

Functional significance of metabolic responses to thermal acclimation in fish muscle
H. Guderley R245

1,12,3 Thermal dependence of locomotor capacity
A. F. Bennett R253

Muscle temperature of mammals: cooling impairs most functional properties
J. A. Faulkner, E. Zerba, and S. V. Brooks R259

5,12,2 Lipocortin 1 fragment modifies pyrogenic actions of cytokines in rats
F. Carey, R. Forder, M. D. Edge, A. R. Greene, M. A. Horan, P. J. L. M. Strijbos, and N. J. Rothwell R266

10,12 Development of circadian cycle of core temperature in juvenile rats
B. Nuesslein and I. Schmidt R270

Metabolic characteristics of cat kidney: failure to adapt to metabolic acidosis
G. Lemieux, C. Lemieux, S. Duplessis, and J. Berkofsky R277

2,4,11 Sleep apneas and cardiac arrhythmias in freely moving rats
T. Sato, H. Saito, K. Seto, and H. Takatsuji R282

2,4,8 Presynaptic modulation of ganglionic ACh release by muscarinic and nicotinic receptors
Z. Dujic, D. L. Roerig, H. K. Schedewie, J. P. Kampine, and Z. J. Bosnjak R288

4,5,7 ADH, renal, and circulatory responses to adrenergic stimulation in anterior third ventricle
C. Simon-Oppermann and O. Günther R294

4,5 Cerebral metabolic and hormonal activations during hemorrhage in sinoaortic-denervated rats
M. Kadekaro, J. Y. Summy-Long, M. L. Terrell, H. Lekan, H. E. Gary, Jr., and H. M. Eisenberg R305

Continuous servo-controlled replacement of urinary sodium loss in conscious dogs
S. E. Andersen and P. Bie R313

3,9 Effect of fourth ventricular neuropeptide Y and peptide YY on ingestive and other behaviors
E. S. Corp, L. D. Melville, D. Greenberg, J. Gibbs, and G. P. Smith R317

2,6,12 Capsaicin desensitization induces atrophy of brown adipose tissue in rats
J. Cui, G. Zaror-Behrens, and J. Himms-Hagen R324

Avian basal metabolic rates: their association with body composition and energy expenditure in nature
S. Daan, D. Masman, and A. Groenewold R333

1,5,10 Armenian hamster female protein: a pentraxin under complex regulation
J. E. Coe and M. J. Ross R341

5,7 Progesterone-cortisol interaction in control of renin activity but not aldosterone
M. Keller-Wood, J. Silbiger, and C. E. Wood R350

2,4 Microinjection of substance P and ACh into rat intermediolateral nucleus elicits cardiovascular responses
F. R. Calaresu, D. J. McKitrick, and E. J. Weernink R357

4,7,9 Relationship between thirst and diazoxide-induced hypotension in rats
M. D. Evered R362

2,4 Noradrenergic and neuropeptide Y mechanisms in guanethidine-sypathectomized rats
E. E. Benarroch, J. D. Schmelzer, K. K. Ward, D. K. Nelson, and P. A. Low R371

1,6,11 Changes in turtle brain neurotransmitters and related substances during anoxia
G. E. Nilsson, A. A. Alfaro, and P. L. Lutz R376

1,10 Seasonal changes in mucosal structure and function in ground squirrel intestine
H. V. Carey R385

No. 3. SEPTEMBER 1990

CATEGORY

EDITORIAL REVIEW

Growth regulation of the vascular system: evidence for a metabolic hypothesis
T. H. Adair, W. J. Gay, and J.-P. Montani R393

2,4,5 Central effects of substance P and somatostatin in conscious, streptozotocin-treated rats
K. C. Tomlinson, S. M. Gardiner, and T. Bennett R405

7,9 Calcium deprivation increases salt intake
M. G. Tordoff, P. M. Ulrich, and J. Schulkin R411

Large synergism between monosodium glutamate and 5′-nucleotides in canine taste nerve responses
T. Kumazawa and K. Kurihara R420

Integrated autonomic and behavioral responses to L/N Ca^{2+}-channel blocker ω-conotoxin in conscious rats
S. Shapira, O. M. Adeyemo, and G. Feuerstein R427

3,5,12 Interleukin 1α and an interleukin 1β fragment are somnogenic
F. Obal, Jr., M. Opp, A. B. Cady, L. Johannsen, A. E. Postlethwaite, H. M. Poppleton, J. M. Seyer, and J. M. Krueger R439

Effects of glucoprivation on gastric motility and pituitary oxytocin secretion in rats
R. K. Cato, L. M. Flanagan, J. G. Verbalis, and E. M. Stricker R447

4 Ca^{2+} transport in myocardial sarcolemma from rainbow trout
G. F. Tibbits, H. Kashihara, M. J. Thomas, J. E. Keen, and A. P. Farrell R453

6,3,9 Energy expenditure and subsequent nutrient intakes in overfed young men
S. B. Roberts, V. R. Young, P. Fuss, M. A. Fiatarone, B. Richard, H. Rasmussen, D. Wagner, L. Joseph, E. Holehouse, and W. J. Evans R461

2,5,6 Hypothalamic adrenoceptors mediate sympathoadrenal activity in exercising rats
A. J. W. Scheurink, A. B. Steffens, and R. P. A. Gaykema R470

2,5,6 Paraventricular hypothalamic adrenoceptors and energy metabolism in exercising rats
A. J. W. Scheurink, A. B. Steffens, and R. P. A. Gaykema R478

3,6,9 Physiological correlates of schedule-induced activities in rats
G. Mittleman, J. Brener, and T. W. Robbins R485

11,12 Body temperature effects on hypoxic and hypercapnic responses in awake rats
M. Maskrey R492

2,4,10 Mechanism of cardiac-related synchronized cardiac sympathetic nerve activity in awake cats
I. Ninomiya, T. Akiyama, and N. Nishiura R499

4,7 Brain histamine regulates pressor responses to peripheral hyperosmolality
V. F. Akins and S. L. Bealer R507

Daily injections of triazolam induce long-term changes in hamster circadian period
O. Van Reeth and F. W. Turek R514

1,4 ^{31}P-NMR measurements of pH_i and high-energy phosphates in isolated turtle hearts during anoxia and acidosis
J. S. Wasser, K. C. Inman, E. A. Arendt, R. G. Lawler, and D. C. Jackson R521

Circulating angiotensin II and drinking behavior in rats
C. M. Pawloski and G. D. Fink R531

Effects of antiglucocorticoid RU 486 on development of obesity in obese *fa/fa* Zucker rats
S. C. Langley and D. A. York R539

Human serum and plasma have different sources of epidermal growth factor
A. Lev-Ran, D. L. Hwang, and D. S. Snyder R545

Relationships between activity of sympathetic nerve pairs: phase and coherence
B. Kocsis, G. L. Gebber, S. M. Barman, and M. J. Kenney R549

Coherence of medullary unit activity and sympathetic nerve discharge
G. L. Gebber, S. M. Barman, and B. Kocsis R561

Forebrain rhythm generators influence sympathetic activity in anesthetized cats
M. J. Kenney, G. L. Gebber, S. M. Barman, and B. Kocsis R572

3,5,6 Hypothalamic paraventricular nucleus lesions do not prevent anorectic effect of exercise in male rats
S. Rivest and D. Richard R579

4,7 Intrarenal atrial natriuretic peptide infusion lowers arterial pressure chronically
D. A. Hildebrandt, H. L. Mizelle, M. W. Brands, C. A. Gaillard, M. J. Smith, Jr., and J. E. Hall R585

7,5,4 Osmoresponsive units in sheep median preoptic nucleus
R. M. McAllen, G. L. Pennington, and M. J. McKinley R593

Permeability changes at blood-retinal barrier in diabetes and effect of aldose reductase inhibition
S. Lightman, G. Pinter, L. Yuen, and M. Bradbury R601

2,4 Discharge patterns of ventrolateral medullary neurons during muscular contraction
R. M. Bauer, G. A. Iwamoto, and T. G. Waldrop R606

5,9,10 β-Cell hyperresponsiveness: earliest event in development of diabetes in monkeys
B. C. Hansen and N. L. Bodkin R612

4,5,7 Effects of baroreceptor denervation on endocrine and drinking responses to caval constriction in dogs
E. W. Quillen, Jr., L. C. Keil, and I. A. Reid R618

Serotonin$_3$ receptor antagonists block anorectic responses to amino acid imbalance
V. A. Hammer, D. W. Gietzen, J. L. Beverly, and Q. R. Rogers R627

Regulation of renal pelvic pressure by diuresis and micturition
J. C. Djurhuus, J. Frokjaer, T. M. Jorgensen, L. Knudsen, T. Pham, and C. E. Constantinou R637

Preheparinization improves organ function after hemorrhage and resuscitation
P. Wang, G. Singh, M. W. Rana, Z. F. Ba, and I. H. Chaudry R645

Characterization of feeding behavior induced by central injection of GRF
P. R. Dickson and F. J. Vaccarino R651

RAPID COMMUNICATIONS

2,9,1 Accelerated gastric emptying in VMH-lesioned rats is secondary to excess weight gain
R. M. Black, K. L. Conover, and H. P. Weingarten R658

No. 4. OCTOBER 1990

CATEGORY

EDITORIAL REVIEW

1,5,4 Hemorrhage and resuscitation: immunological aspects
I. H. Chaudry, A. Ayala, W. Ertel, and R. N. Stephan R663

5,9,10 A method for continual monitoring of bone resorption in rats: evidence for a diurnal rhythm
R. C. Mühlbauer and H. Fleisch R679

4,5,7 Role of vasopressin in renal vascular changes with hypoxemia and hypercapnic acidosis in conscious dogs
C. E. Rose, Jr., N. V. Ragsdale, and R. M. Carey R690

5 Fetal endocrine responses to prolonged hypoxemia in sheep
S. B. Hooper, C. L. Coulter, J. M. Deayton, R. Harding, and G. D. Thorburn R703

3,9,10 Effect of dietary limiting amino acid in prepyriform cortex on food intake
J. L. Beverly, D. W. Gietzen, and Q. R. Rogers R709

3,9,10 Effect of dietary limiting amino acid in prepyriform cortex on meal patterns
J. L. Beverly, D. W. Gietzen, and Q. R. Rogers R716

12 Roles of interleukin 1β and tumor necrosis factor in lipopolysaccharide fever in rats
N. C. Long, I. Otterness, S. L. Kunkel, A. J. Vander, and M. J. Kluger R724

3,5,7 Angiotensin and salt appetite of BALB/c mice
D. A. Denton, J. R. Blair-West, M. McBurnie, P. G. Osborne, E. Tarjan, R. M. Williams, and R. S. Weisinger R729

3,5,7 Effect of angiotensin-converting enzyme inhibitor on salt appetite and thirst of BALB/c mice
R. S. Weisinger, J. R. Blair-West, D. A. Denton, M. McBurnie, F. Ong, E. Tarjan, and R. M. Williams R736

3,7,9 Decreased cerebral sodium concentration and sodium appetite in BALB/c mice
P. G. Osborne, J. R. Blair-West, D. A. Denton, M. McBurnie, E. Tarjan, R. M. Williams, and R. S. Weisinger R741

7,5 Endocrine and fluid-balance responses to amniotic and allantoic fluid loss in sheep
K. A. Dickson, S. B. Hooper, I. C. McMillen, and R. Harding R745

1,4,2 Norepinephrine sensitivity of mesenteric veins in pregnant rats
M. Hohmann, T. M. Keve, G. Osol, and M. K. McLaughlin R753

1,5,12 Testosterone influences hibernation in golden-mantled ground squirrels
T. M. Lee, K. Pelz, P. Licht, and I. Zucker R760

2,5,12 Acute phase response to endotoxin: rise in plasma α-MSH and effects of α-MSH injection
L. W. Martin and J. M. Lipton R768

3,6,5 Effects of stress and exercise on rat hippocampus and striatum extracellular lactate
L. A. De Bruin, E. M. C. Schasfoort, A. B. Steffens, and J. Korf R773

4 Effect of outflow pressure on liver lymph flow in unanesthetized sheep
R. E. Drake and J. C. Gabel R780

7,2,9 Functional recovery of the gustatory system after sodium deprivation during development: how much sodium and where
P. Przekop, Jr., D. G. Mook, and D. L. Hill R786

4,2,7 Baroreflex responses to acute changes in blood volume in humans
C. A. Thompson, D. L. Tatro, D. A. Ludwig, and V. A. Convertino R792

2,5 Preoptic area injection of corticotropin-releasing hormone stimulates sympathetic activity
M. Egawa, H. Yoshimatsu, and G. A. Bray R799

1,6 Calorimetric study of the energetics of pregnancy in golden hamsters
V. S.-H. Quek and P. Trayhurn R807

2,4,5 Atrial natriuretic peptide infusion causes vasoconstriction after autonomic blockade in conscious dogs
R. L. Woods and W. P. Anderson R813

3,5,9 Insulin modifies flavor aversions and preferences in real- and sham-feeding rats
D. A. Vanderweele, R. Oetting Deems, and R. B. Kanarek R823

6,9,3 Dissociative analysis of ventromedial hypothalamic obesity syndrome
W. L. Parkinson and H. P. Weingarten R829

2,11 Control of ventilation in adult rats hypoxic in the neonatal period
S. Okubo and J. P. Mortola R836

2,4,9 Diminished cardiovascular responsiveness to vagal stimulation in obese rats
R. D. Buñag, D. Krizsan, and H. Itoh R842

1,2,4 Responses of harbor seal and pig heart to progressive and acute hypoxia
F. C. White, R. Elsner, D. Willford, E. Hill, and E. Merhoff R849

1,5,7 Cortisol directly stimulates differentiation of chloride cells in tilapia opercular membrane
S. D. McCormick R857

No. 5. NOVEMBER 1990

INVITED REVIEW

4 Long-term arterial pressure control: an analysis from animal experiments and computer and graphic models
A. C. Guyton R865

RESPIRATORY RECEPTORS

Introduction: Receptors in control of breathing in vertebrates
M. R. Fedde and W. K. Milsom R878

2,11 Neurogenesis of respiratory rhythm and pattern: emerging concepts
J. L. Feldman, J. C. Smith, H. H. Ellenberger, C. A. Connelly, G. Liu, J. J. Greer, A. D. Lindsay, and M. R. Otto R879

1,11 Chemoreceptor modulation of endogenous respiratory rhythms in vertebrates
N. J. Smatresk R887

11,1 Mechanoreceptor modulation of endogenous respiratory rhythms in vertebrates
W. K. Milsom R898

1,10,11 Receptor interactions in modulating ventilatory activity
G. S. Mitchell, M. A. Douse, and K. T. Foley R911

5,7 Catecholamines depress endolymphatic sac direct current potential in guinea pigs
N. Mori, N. Uozumi, and S.-I. Sakai R921

2 Role of calcium channels and protein kinase C for release of norepinephrine and neuropeptide Y
M. Haass, C. Förster, G. Richardt, R. Kranzhöfer, and A. Schömig R925

5,9,10 Circadian rhythm in recognition threshold of salt taste in healthy subjects
A. Fujimura, H. Kajiyama, T. Tateishi, and A. Ebihara R931

7 Net basolateral potassium flux and short-circuit current in ouabain-treated frog skin
T. C. Cox and R. E. Woods R936

2,3,4 Neurons controlling cardiovascular responses to emotion are located in lateral hypothalamus-perifornical region
O. A. Smith, J. L. DeVito, and C. A. Astley R943

2,4 Mechanisms of pressor response produced by stimulation of nucleus ambiguus
B. H. Machado and M. J. Brody R955

2,4 Single-unit responses of serotonergic neurons to vasoactive drug administration in behaving cats
C. A. Fornal, W. J. Litto, D. A. Morilak, and B. L. Jacobs R963

5,7 Atrial natriuretic factor and blood pressure control: role of sodium and aldosterone
C. A. Gaillard, H. L. Mizelle, J.-P. Montani, M. W. Brands, D. A. Hildebrandt, and J. E. Hall R973

2,4 Baroreflex sensitivity in the canine model of obesity-induced hypertension
K. E. Wehberg, D. B. West, C. Kieswetter, and J. P. Granger R981

1,6 Quantitative genetics of maximal oxygen consumption in a garter snake
T. Garland, Jr., and A. F. Bennett R986

5,12 Induction of plasma inhibitors of interleukin 1 and TNF-α activity by endotoxin administration to normal humans
G. A. Spinas, D. Bloesch, M.-T. Kaufmann, U. Keller, and J.-M. Dayer R993

2,5 Diminished epinephrine response to hypoglycemia despite enlarged adrenal medulla in trained rats
B. Stallknecht, M. Kjær, K. J. Mikines, L. Maroun, T. Ploug, T. Ohkuwa, J. Vinten, and H. Galbo R998

4,7 Effects of reduced uterine blood flow on fetal cardiovascular, renal, and lung function
A. D. Stevens and E. R. Lumbers R1004

4,7 Salt sensitivity in hypertensive rats with angiotensin II administration
K. Ando, Y. Sato, and T. Fujita R1012

4,7,5 Role of atrial appendages in modulating stimulated plasma atrial natriuretic peptide levels in conscious rats
A. Hoffman, E. Grossman, and H. R. Keiser R1017

4,5,7 Role of central mineralocorticoid binding sites in development of hypertension
P. C. Janiak, S. J. Lewis, and M. J. Brody R1025

3,9,10 Light-dark cycle modulates drinking to homeostatic challenges
R. F. Johnson and A. K. Johnson R1035

5,6,12 Stimulatory effects of cold exposure and cold acclimation on glucose uptake in rat peripheral tissues
A. L. Vallerand, F. Pérusse, and L. J. Bukowiecki R1043

2,5,7 Role of renal sympathetic nerves in response of the ovine fetus to volume expansion
F. G. Smith, T. Sato, O. J. McWeeny, J. M. Klinkefus, and J. E. Robillard R1050

2,5,12 Vasopressin and oxytocin in rat brain in response to prostaglandin fever
R. Landgraf, T. J. Malkinson, W. L. Veale, K. Lederis, and Q. J. Pittman R1056

2,4,11 Rostral ventrolateral medulla and sympathorespiratory integration in rats
P. G. Guyenet, R. A. Darnall, and T. Riley R1063

MODELING METHODOLOGY FORUM

4,6 Simulation of mechanoenergetics of asynchronously contracting ventricle
H. Suga, Y. Goto, H. Yaku, S. Futaki, Y. Ohgoshi, and O. Kawaguchi R1075

SPECIAL COMMUNICATIONS

1,10 Different in vivo metabolic activities of suprachiasmatic nuclei of Turkish and golden hamsters
W. J. Schwartz R1083

RAPID COMMUNICATIONS

1,6,9 Relationships between plasma ketones and fasting duration in neonatal elephant seals
M. A. Castellini and D. P. Costa R1086

LETTERS TO THE EDITOR

Repeated measurement of gastric emptying in rats
M. Giner and M. M. Meguid; K. L. Conover, H. P. Weingarten, and S. M. Collins R1090

No. 6. DECEMBER 1990

CATEGORY

3,9 Obese and lean Zucker rats differ in preferences for sham-fed corn oil or sucrose
D. Greenberg and S. C. Weatherford R1093

3,9 Effect of weight cycling on susceptibility to dietary obesity
B. Graham, S. Chang, D. Lin, F. Yakubu, and J. O. Hill R1096

6,9,11 Metabolic differences between obesity-prone and obesity-resistant rats
S. Chang, B. Graham, F. Yakubu, D. Lin, J. C. Peters, and J. O. Hill R1103

1,7 *p*-Chloromercurobenzene sulfonate inhibition of active Cl^- transport in plasma membrane vesicles from *Aplysia* gut
G. A. Gerencser R1111

9 Model of spontaneous obesity in aging male Wistar rats
F. D. Newby, M. DiGirolamo, G. A. Cotsonis, and M. H. Kutner R1117

5,6 Fetal catecholamine responses to maternal hypoglycemia
C. M. Harwell, J. F. Padbury, R. S. Anand, A. M. Martinez, E. Ipp, S. L. Thio, and E. E. Burnell R1126

2,4,8 Microvascular specializations promoting rapid interstitial solute dispersion in nucleus tractus solitarius
P. M. Gross, K. M. Wall, J. J. Pang, S. W. Shaver, and D. S. Wainman R1131

4,7,12 Effects of compartmental fluid repletion on heat-induced limb vasodilation in dehydrated baboons
K. L. Ryan and D. W. Proppe R1139

5,6,9 Identification of candidate genes for a factor regulating body weight in primates
B. E. Wilson, G. E. Meyer, J. C. Cleveland, Jr., and D. S. Weigle R1148

4 Cardiovascular and sensory responses to forearm ischemia and dynamic hand exercise
W. Maixner, R. H. Gracely, J. R. Zuniga, C. B. Humphrey, and G. R. Bloodworth R1156

2,4 Alteration of baroreflex control of forearm vascular resistance by dietary fatty acids
D. E. Mills, M. Mah, R. P. Ward, B. L. Morris, and J. S. Floras R1164

2,4,7 Normalization of arterial pressure after barodenervation: role of pressure natriuresis
J. W. Osborn and S. K. England R1172

1,7,8 Lysine transport by brush-border membrane vesicles of eel intestine: interaction with neutral amino acids
S. Vilella, G. A. Ahearn, G. Cassano, M. Maffia, and C. Storelli R1181

10,3,12 Entrainment of circadian rhythms with 26-h bright light and sleep-wake schedules
C. I. Eastman and K.-J. Miescke R1189

3,5,6 Effects of diet and body fat content on cold-induced anestrus in Syrian hamsters
J. E. Schneider and G. N. Wade R1198

4,7 Chronic lymph flow and transcapillary fluid flux during angiotensin II hypertension
J. Valenzuela-Rendon and R. D. Manning, Jr. R1205

Acute phase response in exercise: interaction of age and vitamin E on neutrophils and muscle enzyme release
J. G. Cannon, S. F. Orencole, R. A. Fielding, M. Meydani, S. N. Meydani, M. A. Fiatarone, J. B. Blumberg, and W. J. Evans R1214

1,6,12 Temperature regulation of young coypus (*Myocastor coypus*) in air and water
C. P. Doncaster, E. Dumonteil, H. Barré, and P. Jouventin R1220

3,9 Learning to sham feed: behavioral adjustments to loss of physiological postingestional stimuli
J. D. Davis and G. P. Smith R1228

2,4,5 Thermal nociception potentiates the release of ACTH and norepinephrine by blood loss
D. A. Bereiter, A. P. Benetti, and K. V. Thrivikraman R1236

4,5,7 Reduced renal perfusion pressure causes prostaglandin-dependent excitation of R2 chemoreceptors in rats
J. D. Barber and N. G. Moss R1243

5,7 Effect of arginine vasopressin on CSF composition and bulk flow in hyperosmolar state
J. Szmydynger-Chodobska, E. Szczepańska-Sadowska, and A. Chodobski R1250

1,5,7 Basal and pentagastrin-stimulated gastric secretion in young horses
